## SULTANA CAKE RECIPE for Classes 215 & 244

### SULTANA CAKE

400-500 gm Sultanas  
Water to cover  
200 gm butter  
½ tsp vanilla essence  
½ tsp almond essence  
1½ cups sugar  
3 eggs  
1 cup Self Raising Flour  
1½ cups Flour

### METHOD:

Wash fruit and place in large saucepan. Cover with water and bring to boil, then simmer for 10 minutes. Drain fruit thoroughly, add cubed butter, essences and sugar. Stir until butter melted then stand to cool. While mixture is cooling, beat the eggs. Only when mixture is cool enough add the beaten eggs (if too warm they will scramble). Add the two flours. Stir until well mixed but do not over mix. Line your 20 cm tin or 23 cm round tin with baking paper. Pour into cake tin and bake @ 175 degrees for 1¼ hours or until skew comes out clean.
